

MONTHLY STATISTICS OF THE FOREIGN TRADE OF INDIA

VOLUME 1 - EXPORTS AND RE-EXPORTS

January to March 1972.

## INTRODUCTORY NOTE

### 1. Scope of the publication

1.1. The statistics relate to exports and re-exports of merchandise from all the sea-ports, air-ports and land customs stations of the country.

1.2. Data on Postal Exports are shown without commodity details under article Code No. 911.0000. Commodity country details of such exports are published in the "Supplement to the Monthly Statistics of the Foreign Trade of India"—Vol. I.

### 2. Coverage

2.1. The following items of trade are included (a) silver (other than current coins), notes and coins withdrawn from circulation or not yet issued (b) indirect transit trade (c) exports by parcel post and letter post.

2.2. The following categories of trade are excluded (a) direct transit trade, (b) transshipment trade, (c) passengers' baggage, (d) ship's stores.

### 3. Source of data

The statistics are based on declarations made by exporters as subsequently checked by Customs officials.

### 4. System of recording

The 'general system' is followed according to which exports relate to Indian merchandise and re-exports to foreign merchandise previously imported into India.

### 5. Basis of compilation.

With a view to expediting compilation the exports data are being compiled from the issue for November 1970 onwards from the original copy of the Shipping Bills as against the finally passed (Duplicate) Shipping Bills followed up to October 1970.

### 6. Commodity Classification

Commodities are classified according to the Revised Indian Trade Classification, 1965 (R. I. T. C.) except in the case of "prescribed substances" under the Atomic Energy Act, 1962. Petroleum and Petroleum Products also do not conform to R. I. T. C. from this issue onwards. The figures are shown in terms of a few specified commodities without countrywise shares. Certain changes made in the R. I. T. C. from April, 1970 as shown overleaf.

### 7. Country classification

Exports and re-exports are credited to the country of final destination.

### 8. Changes in names of Countries

The nomenclature of Pakistan East has been changed to Bangladesh and that of Pakistan West to Pakistan from the issue for January 1972

### 9. Quantity

Quantity figures provided in Tables 3 and 4 are net of packing.

### 10. Valuation

Values conform to f.o.b./f.o.r.

### 11. Totals

11.1. Table 1 shows the 'Group', 'Division' and 'Section' totals and Table 2 Country and economic region totals for the current period as well as for the corresponding period of the previous year. The Hindi equivalents of the Group Division, Section and Country descriptions have been included from April 1971 issue.

11.2. Table 3 and 4 show the quantity and value totals of each commodity for individual countries. Items are marked with dots. Quantity totals for items, where meaningful, are also shown. Group totals relate to value only.

### 12. Items under reference

"Value of articles under reference" relates to items referred back to the Customs for verification. They are not included under appropriate headings.

### 13. Corrections

Adjustments due to (i) short and shut out shipments and (ii) supplementary data in respect of transactions for January 1971 to March 1972 received during the month of March 1972, have been made in the figures for that month. Besides, a large volume of short and shut out shipments for earlier months which could not be adjusted in those months and brought forward from month to month, has been incorporated in the cumulative figures for April 1971 to March 1972. Hence the aggregates of monthly totals for April 1971 to March 1972 do not tally with the cumulative figures for this period in this issue.

### 14. Chart

Monthly averages of exports of Indian merchandise during each of the last three years as well as the monthly totals for 1968-69 and onwards are presented in the chart.

### 15. General

Full details of the scope, coverage and concepts of these statistics may be had from this Department publication 'A Guide to Official Statistics of Trade, Shipping and Customs Revenue of India' (Revised).

### 16. Comparability of the statistics

The figures given in this publication differ from the exchange control data compiled by the Reserve Bank of India owing to differences in timing, coverage and valuation.
